

# Sprint #1 Report

EasyRoute

April 24, 2024

## Actions to stop doing:

- researching which mapping tool/API to use → we have decided on OSM and ArcGIS

## Actions to start doing:

- researching routing tools/API to use
- adding more customization to map
  - legend
  - routing tool
  - markers for current location/destination
  - make sure routes are highlighted
- work on pathfinding algorithm if routing tools/APIs found do not fit our needs

## Actions to keep doing:

- frequent communication between team members
- communicate git pushes
- research

## Work completed/not completed:

- Completed:
  - embedded 3D interactive map on website
  - deployed this website on Vercel
  - solidified which mapping tools (does not include routing tools) we will use: OSM, ArcGIS
- Not completed:
  - logo

**Work completion rate:** 95%
